Report of Principal and School Improvement Council

During the 2012-2013 school year, Estill Elementary School continued with its transformation process. Our school is a Focus School as a result of our at – risk rating on our state report card. This rating has supported our quest to continue transforming our school from at – risk to at – promise. As a result of this process, we have redirected the emphasis placed on student achievement by continuing to focus on innovative reading and math instructional strategies, reinforcing a common language for curricular, creating more rigorous formative and summative assessment practices, decreasing disciplinary infractions by enhancing our Positive Behavior Intervention and Support implementation across the school, and increasing parental involvement through family engagements and collaboration.

Scheduling was restructured to maximize opportunities for teaching and learning in all classrooms. We have continued implementing the school's instructional framework across all content areas. The extra allotted instructional time in reading was designed for teachers to provide instruction in the five components of an effective reading program to include: phonemic awareness, phonics, fluency, vocabulary and comprehension. The Math workshop centered on a common instructional framework in order for teachers to deliver effective instruction that provides students the opportunity to practice math fluency and to develop conceptual understanding of mathematical processes. We implemented the 6+ 1 Writing Traits model of instruction and assessment in order to provide a common language for teachers and students to communicate about the characteristics of writing and also to establish a clear vision of what good writing looks like. Additionally, we continued implementing Classworks by Curriculum Advantage in reading and math as an instructional and intervention tool to enhance learning.

Teachers used benchmark assessments such as MAP (Measures of Academic Progress), Data Director, and DIBELS to document student progress and make instructional decisions about differentiating the content, process, product, or the learning environment as well as to form flexible grouping. Instructional minutes for Related Art classes increased to accommodate daily collaborative planning and professional learning for all K – 5 teachers.

Our school's dedication in increasing parental involvement is the foundation in improving student achievement. This mission involves transforming our commitment when communicating with our stakeholders through community collaboration. We have continued with our weekly Learning Community Announcements newsletter, a common day of the week to send home graded student work, school or community — wide flyers of events and the use of "Alert Now", our rapid communication service system designed to send out messages to our community quickly and effectively. We have attained strong community and family involvement by providing nightly programs such as: Assessment Night, Literacy Night, Numeracy Night, Night of the Oscars and quarterly honor roll programs. We have made a conscious effort to remove barriers and excuses by strengthening our partnerships with the Department of Mental Health and local area churches. We have added an additional club for those students achieving grade level norms called "SWAGGERS" Students with Academic Greatness.

ESEA/Federal Accountability Rating System

In July 2013, the South Carolina Department of Education was granted a waiver from several accountability requirements of the federal Elementary and Secondary Education Act (ESEA). This waiver allowed SC to replace the former pass/fail system with one that utilizes more of the statewide assessments already in place and combine these subject area results with graduation rate (in high schools) to determine if each school met the target or made progress toward the target. This analysis results in a letter grade for the school rather than the pass/fail system of previous years. For a detailed review of the matrix for each school and districts that determined the letter grade, please use the following link: http://ed.sc.gov/data/esea/ or request this information from your child's district or school.
